

# Kredyt.nl Partnership kit for Rico Bouw

## How we work together

Great to have you as a Kredyt.nl partner. Below you'll find a clear overview of how our collaboration works and what we can both expect.

---

### 1. What we do

We will provide:

- **A dedicated partner page on Kredyt.nl**, for example:  
<https://kredyt.nl/pl/partner-pl/rico-bouw-pl/>

This page gives your customers all the information about our partnership and allows them to start a financing application directly.

Each partner page is multilingual (NL, PL, EN, RO, BG, etc.), so customers can access it in their own language.

- **Custom partner flyers** featuring your logo, QR code, and a direct link to your Kredyt.nl partner page. These can be used in your showroom, store, during consultations, or attached to offers.
- **Full support with copy, translations, and visuals**, so all materials fit seamlessly with your brand identity and customer base.

### 2. What you do

To make the partnership visible to your customers, you must include the Kredyt.nl reference at several key points in your customer journey:

1. A dedicated page on your website, titled *Financing via Kredyt.nl*.
2. A visible link in both your navigation and footer.
3. A clear mention on product pages, within your quotation flow, and during sales conversations.

This ensures that every customer knows financing is available at every relevant moment.

### 3. Example texts for your website

Below are two sample text blocks used by other partners.  
Feel free to adapt these to your product category, tone of voice, and brand style.
